### Horse Quartermark

Decorative markings brushed into the horse's coat--quarter marks--enhance the conformation of a well-muscled hip and croup, and draw attention to the cleanliness and shine of a well-conditioned show horse. Quarter marks not only highlight a horse's conformation and give correct turnout a finishing touch, they can also reflect personal style and add some fun for special occasions.

Badminton CCI\*\*\*\* Australian event rider Andrew Nicholson's horse sports a kangaroo at the 2006
