

## Video: Head Tossing

**Watch John Lyons video to learn his tried and tested method for reforming a head tosser.**

Q: My horse tosses his head constantly. I had the veterinarian out, and she says his teeth are fine. I even asked a trainer to help me find a comfortable bit and adjust my horse's headstall, but he still tosses his head. Help!

A: Watch John Lyons' video to learn his tried and tested method for reforming a head tosser.
