

Building a Sound Future

How to start a youngster correctly.

By Nancy S. Loving, DVM

April 2007

You proudly survey your young horse as you consider sending him off for training to get started under saddle. He's turning 3 years old, and you are eager to begin your working relationship with him. You know there are problems in starting a horse too young, with soundness issues surfacing later in life due to premature or incorrect training, but you wonder how to determine when is the right time.
