

Equine Experience

Planning an equestrian vacation this spring?

01-08-2007

Planning an equestrian vacation this spring? California's Central Coast may be a good destination, especially if you like rolling hills, wine tasting and ocean breezes. From March 30-April 1, the Equine Experience horse expo comes to the California Mid State Fairgrounds in Paso Robles. More "boutique" than your typical horse expo, the event will include exhibits and entertainment, as well as information-packed seminars from renowned clinicians for riders and horse enthusiasts of all levels. Conceived by local rancher John Rudnick, this event is the culmination of a lifelong love of horses and the desire to better the relationship between horse and human. Indulge yourself with your love of all things equine! For more information: www.equineexperience.net.
