

## Emergency Stabling Sites Sought

**Help build peace of mind for traveling equestrians.**

06-22-2007

Imagine that you are traveling with your horses in an unfamiliar area when your vehicle breaks down or worse, you are involved in an accident requiring overnight repairs and temporary shelter for your horses. Who would you call for assistance? As a member of USRider, you could count on prompt, efficient help with a single phone call. USRider, the nationwide roadside assistance program for equestrians, provides emergency road service to its members in all states except Hawaii, as well as the 10 provinces of Canada.

Now USRider is seeking to expand its existing database of emergency stabling facilities for its members even further. The call is being put out to fellow equestrians in the United States and Canada to assist in this effort. If you would be willing to provide fellow equestrians with emergency stabling on a case-by-case basis, please sign up by visiting the USRider website at [www.usrider.org](http://www.usrider.org).
